## OBJECTIVE

Statistics student with experience in web and mobile application development, and a strong interest in data-driven problem solving. Experienced in building responsive interfaces, designing interactive applications, and applying statistical reasoning to real-world problems.

## EDUCATION

---

### Chulalongkorn University

Bangkok

August 2023 - 2027

*Bachelor of Science in Statistics (Information Technology for Business)*

## PROJECTS & RELEVANT EXPERIENCE

---

### Swift Student Challenge — Mobile Game Development

- Developed an interactive mobile game using Swift focused on sustainable sugarcane farming.
- Designed gameplay mechanics with multiple harvesting methods (manual, machinery, burning).
- Implemented decision-based logic reflecting environmental and sustainability outcomes.

### Web Development Project — Bon Pain Bakery Website

- Built a responsive website for a bakery business.
- Designed product pages and basic user interactions.
- Focused on usability and clean UI design.

### Game Development Project — C Programming

- Built a choice-based interactive game with multiple routes and endings.
- Implemented branching logic and user input handling.

## EXTRACURRICULAR ACTIVITIES

---

### President — Zigma Camp Chapter 10

- Led end-to-end planning and execution of a large-scale student development camp with 100 participants.
- Coordinated multiple teams across content, operations, and facilitators, overseeing 76 staff members.
- Ensured alignment between educational objectives and participant experience.

### Head of Program — Statistics (BIT), Chulalongkorn University

- Served as the main representative coordinating between 120 students per year and faculty members.
- Led the organization of Titisumphan Camp, connecting BIT students from Year 1–4.
- Acted as the primary coordinator for Senior Project planning and communication.

### Vice President — Facilitator Team, Zigma Camp Chapter 9

- Supervised 20 facilitators responsible for participant engagement and well-being.
- Managed activity flow and resolved on-site issues for a camp with 100 participants.
- Demonstrated leadership, communication, and problem-solving skills under time constraints.

### B2B Team Member — Workshop & Coaching Programs

- Organized and delivered coaching workshops for student organizations inside and outside Chulalongkorn University.
- Conducted insight research to identify needs and design effective learning modules.
- Collaborated with teams to create activities focused on personal development and organizational growth.

## SKILLS

---

### Programming Languages

- Swift, C, JavaScript, Python
- R, SQL

### Web Development

- HTML, CSS

### Tools

- Excel, Tableau, Canva
